# AWS Managed Services Partnerships

At SCTG, we prefer the term Partner instead of Provider. That's because we see successful MSP relationships as just that — partnerships.

The foundations of AWS success are planning and collaboration. With regular, constructive conversations about the cloud and its requirements for your business, we can and will deliver success.

Each AWS MSP is built via our proven processes, delivering tangible value in four distinct phases:

Discovery — Plan + Design + Build — Run + Operate — Optimize + Evolve

Each phase uniquely supports your business, providing exactly the management you need.

About ServerCentral Turing Group

ServerCentral Turing Group (SCTG) is a Chicago-based AWS Managed Service Provider, Public Sector Partner, Government Competency Partner, and DevOps Competency Partner. Our goal is to deliver on the promise of AWS technologies for our customers and those who rely on them.

We focus on solving your AWS challenges, so you can focus on what matters most

Technology leaders choose SCTG as their AWS Managed Service Partner (MSP) because we're committed to your technology, business and personal success at every turn.

- We simplify technology transitions to simplify your life

- Our proven ability to guide you through complex tech challenges means you can rely on us for anything

- Our expertise is multifaceted: we're experts in tech, and experts at making you stand out

- We're refreshingly transparent: the only surprises you'll get are good ones

- We flex our services and approach to meet you where you are and take you where you want to go

Proven Experience

We have been in business since 1999 and a certified AWS MSP since 2012. We augment our AWS MSP experience with a global data center footprint and private IP network to deliver connectivity and hybrid environments wherever your customers are located.

We recognize your business, and your customers, operate 24x7x365. We have designed and operate our support operations to be here for you, whenever and however necessary to ensure your success, including 15-minute response times.

"We were looking for a technology partner. We had lots of people who wanted to sell us a service, but we weren't willing to turn over the future of the business to someone who said, 'Don't worry, we'll take care of it.'

SCTG did not do that. From day one, they wanted to understand our issues and our problems, where we were going, and why."

FLORENCE CORPORATION

"As of the launch, Metra will save 50% a year over previous services.

Development costs are less, and the open-source platform means that we can perform both support and development in-house, saving money and ensuring timely updates to the site and its content."

Metra®

You can get the basics anywhere. But if you want an AWS technology partner with decades of enterprise IT experience, SCTG is the right partner for you.

Let's build Amazon cloud services that work for you.
